WORK EXPERIENCE

OPTIV | Principal Engineer August 2021 - Present

- Developing a custom web app with Python, Flask, and Plotly Dash, integrating the CrowdStrike API to ingest endpoint data across multiple CIDs and using Pandas to process large datasets for unified reporting and visualization.
- Orchestrating the management of EDR/XDR security tools, overseeing Trend Micro Deep Security, Cloud One Workload Security, CrowdStrike Falcon, and McAfee Anti-Virus for over 100,000 endpoints.
- Developing Python and JavaScript/TypeScript tools, automating tasks for increased efficiency within the platform engineering team.
- Administering AWS infrastructure, achieving an 87% cost reduction for the Deep Security environment specifically.
- Communicating technical solutions, guiding my client on initiatives, and ensuring we understand and mitigate possible consequences.
- Leading large-scale migrations between security products, optimizing for specific use cases and ensuring a smooth transition.
- Spearheading additional efforts to continuously improve security software within a change-resistant Fortune 50 environment.

TREND MICRO | Sr. Customer Service Engineer/Threat Specialist January 2019 - August 2021

- Implemented and supported Trend Micro Deep Security and Cloud One to protect customer environments.
- Led the team in efficiency, achieving recognition as the top support ticket closer in the 2020 fiscal year.
- Received recognition for ranking in the top 3 most satisfied customer survey responses multiple times within the team.
- Integrated and resolved issues specific to AWS, Google Cloud, and Azure infrastructure.
- Addressed challenges in diverse industries (Manufacturing, Healthcare, Banking) and ensured compliance with regulations (PCI, HIPAA, FedRAMP).
- Configured reporting and alerting with SIEMs like Splunk, LogRhythm, and QRadar.
- Implemented security best practices for Firewalls, Intrusion Prevention and Detection (IPS/IDS) Engines, and Anti-malware/Anti-Virus solutions.

CERTIFICATIONS

CrowdStrike - Certified Falcon Administrator
CrowdStrike - Certified SIEM Engineer
